Antigen has demonstrated exceptional proficiency and expertise, completing over 100,000 hours of DFIR, recovery, and threat actor communication work for leading global cyber insurance carriers such as AIG, Allianz, AXA XL, Chubb, and Zurich, among others. Their extensive experience has established them as a trusted partner in managing and mitigating cyber risks for these industry leaders.

RESPONSE TEAM

- 24/7/365 Response (with toll free hotline + on-demand intake form)
- 58 dedicated cyber security staff members

FORENSICS + INCIDENT RESPONSE

- 574 DFIR investigations
- Cloud-native approach to rapidly gather critical forensic details

RECOVERY

- 374 recovery engagements
- 5-7 business days average to restore operations back to existing functionality at significantly reduced costs

NEGOTIATIONS

- 723 engagements

- Average ransom reduction of 58-60%, and at times as much as 92-96%.
- Antigen has also partnered with top panel providers such as DigitalMint to facilitate secure and compliant payments in circumstances where that cannot be avoided.

ADDITIONAL NOTES

Antigen has completed numerous cases with top panel cyber law providers such as Mullen Coughlin.

Antigen has completed covered cyber security work with our 48 global insurance carriers accepting payments in multiple currencies.

Antigen's ongoing research of over 4,200+ insurance claims continues to provide valuable insight into the underwriting of cyber liability insurance.
