

ANTIGEN

SECURITY

**ARE YOU EXPERIENCING A CYBERATTACK? DON'T PANIC!
FOLLOW THESE STEPS TO SECURE YOUR NETWORK:**

STOP

The attack from doing further damage by:

- Resetting passwords
- Isolating host computers (but don't turn them off!)
- Enable multi-factor authentication if possible

CALL

The experts at Antigen Security at:

517-940-6288

WAIT

For your incident response team to investigate
and give you further instructions for remediation

What you can do now:

- Patch external-facing apps in a timely manner
- Enforce multifactor authentication comprehensively
- Have a trusted backup strategy

THE EXPERTS AT ANTIGEN ARE IN YOUR CORNER WHEN YOU NEED THEM.
